

Sonam Wangchuk

Remote Sensing Specialist/Glaciologist

Sonam Wangchuk (Dr) is a Postdoctoral Researcher at Vrije University Amsterdam, the Netherlands. He received his PhD in 2021 from University of St Andrews, the United Kingdom. He finished his master's degree in Environmental Engineering in 2016 from Warsaw University of Technology, Poland, and bachelor's degree in Life Sciences in 2013 from the Royal University of Bhutan. During his PhD he developed algorithms for mapping and monitoring the Himalayan glacial lakes using remote sensing datasets. His current research work focuses on the Siberian Arctic permafrost degradation, wildfires, and carbon emissions using remote sensing datasets. Email address - sonam.wangchuk4303@gmail.com
